

Lead with Impact

10 Values of High Impact Leaders is the deeper leadership program for supervisors and managers who have been introduced to the basics — and need the values of HIGH IMPACT leaders, including how to delegate to allow other people to become responsible.

Common Sense isn't Always Common Practice.

1. Title does not equal high-impact leadership

A promotion provides a title. Values determine who will follow.

2. Doing the work does not equal developing people

Low impact leaders continue to delegate tasks. High impact leaders develop and delegate results, not methods.

3. Success does not equal significance

Successful leaders focus on getting results. Significant leaders focus on helping others get results.

10 Values of High Impact Leaders is our in-depth leadership program. Values are the foundation of character. Character is what separates high-impact leaders from low-impact leaders — and that one thing is made up of many things.

This program is more advanced than Blue-Collar Leadership® & Supervision. That program provides the foundation of high impact leadership. 10 Values of High Impact Leaders builds on that foundation – perfect for those who have had formal leadership training and are ready to learn more.
